Summary

BI and data analytics consultant with 6+ years of experience in delivering end-to-end BI solutions across fintech, logistics, and operations. Proven ability to cut reporting cycles by up to 70% and automate processes that save 40+ hours each month, exemplified by Power BI dashboards and Azure-based ETL pipelines. Skilled in Power BI, SQL, Python, and Azure, driving cross-functional collaboration and data-driven decision-making.

Skills

- **Business Intelligence & Strategy:** Data Governance & Quality Assurance, Ad-hoc Analysis, SSRS, Business Intelligence, Agile/Scrum, SDLC, Technical Documentation (BRD, FRD), UAT Coordination, Stakeholder Management & Reporting, Data Modeling
- **BI & Programming:** Power BI, Tableau, Power Apps, SQL (Joins, CTEs, window functions), Python (pandas, NumPy), Forecasting & Predictive Modeling, Regression, Anomaly Detection, Sigma, Advanced Excel (macros, VBA, xlookup, pivot tables)
- **Data Infrastructure & Tools:** Microsoft Fabric, Azure, Databricks, Data warehousing, Salesforce, AWS (S3, EC2, SageMaker), APIs, JIRA, Confluence, GitHub, Snowflake, KPI Taxonomy Design, ETL/ELT Automation, Power Automate, MS Office Suite, DBT
- **Certifications:** Microsoft Certified: Power BI Data Analyst (PL-300), Fabric Data Engineer (DP-700), Fabric Analytics Engineer (DP-600)

Work Experience

Arizona State University

Feb 2026 - Present

Business Data Analyst

Tempe, AZ

- Engineered and analyzed datasets containing 10,000+ survey responses on AI adoption trends, developing Streamlit dashboards that delivered actionable insights to 15+ research leaders across cross-functional teams.
- Built a Python-based RAG agent using Claude API, improving internal information retrieval speed by 40%; conducted requirements workshops and authored complete BRD and SRS documentation from intake through post-launch validation.

Wealth Enhancement Group

Jul 2025 - Aug 2025

Project Management Intern - BPO

Plymouth, MN

- Delivered KPI and audit performance reporting that improved operational visibility by 30% by aggregating data from Salesforce CRM using SQL scripts in AWS Athena to support vendor management and outsourcing governance decisions.
- Collaborated with senior manager and global workforce partners to audit 10+ standard operating procedures, reducing process inefficiencies by 14% through the deployment of automated Excel and Power BI compliance trackers.

FIS

Nov 2021 - Jul 2024

Consultant - BI Analytics

Pune, IN

- Designed Power BI dashboards to monitor 500K+ daily authorization transactions and settlement flows across 5 countries, improving anomaly detection and reconciliation visibility by 35%.
- Automated SQL-based reconciliation frameworks to extract Oracle DB datasets into Azure Databricks for BI models, instantly flagging missing settlement batches and merchant amount mismatches, reducing manual reconciliation effort by 60%.
- Accomplished secure financial reporting governance across 15+ cross-functional teams, boosting data accessibility by 40% with zero security breaches, by deploying a role-based security in Power Apps integrated with real-time Power BI; received the Performance Excellence Award.
- Accelerated deployment efficiency by 85% by standardizing DAX, SQL, and Power BI file deployments using Git version control and Power Automate integrations and reducing manual effort by 40+ hours/month and ensuring seamless delivery.
- Partnered with AfterPay stakeholders and data teams to establish KPI frameworks tracking payment success rates, transaction volumes, settlement performance, and cross-border merchant activity, increasing operational efficiency by 45%.

Infogain

Apr 2021 - Oct 2021

Senior Business Intelligence Analyst II

Pune, IN

- Implemented a Python-based forecasting model and developed Power BI dashboards with 5+ dataflows in PBI Service to monitor inventory performance and logistics efficiency, improving demand planning accuracy by 30%.
- Migrated legacy SSRS reporting workflows by building Azure (ADF) data pipelines to extract data from Oracle 11g, enabling Incremental Refresh in Power BI Service and reducing report refresh time by 40% across operations and logistics.

Dynamic Corporate Solutions

Dec 2018 - Jan 2021

Associate Business Intelligence Analyst II

Pune, IN

- Developed interactive BI dashboards using Power BI and Power Apps tracking user funnel performance and campaign metrics through A/B tests, driving a 25% property sales increase and improving client retention by 20%.
- Improved marketing campaign data accuracy by 35% and eliminated 90% of critical go-live defects by directing CRM user acceptance testing, rebuilding 15+ Azure DevOps test suites, and unifying technical and marketing workflows that enabled reliable campaign insights.
- Led ad-hoc report delivery by 45% and reduced manual data processing time by 20+ hours/week by constructing reusable SQL scripts and managing ETL workflows in Azure Data Factory and Databricks via GitHub across operations and marketing teams.

Education

Arizona State University

Aug 2024 - Dec 2025

M.S., Business Analytics

Savitribai Phule Pune University

Aug 2014 - May 2018

B.E., Electronics and Telecommunication

Projects

Financial Analytics Insight Amkor Technology

Aug 2025 - Dec 2025

Amkor Technology | MS Capstone Consultant

- Architected a Power BI dashboard consolidating 25+ KPIs from SEC filings and Bloomberg APIs, cutting reporting cycles by 70% and enabling decision-making for semiconductor operations.
- Orchestrated Python-based forecasting models, achieving 93% precision, and preparing detailed analytical reports that informed \$50M+ in strategic investment decisions for Amkor Technology stakeholders.

Digital Asset Integration in Financial Cycles [GitHub](#)

- Programmed machine learning-based regime detection system (HMM, K-Means) with a Tableau dashboard, analyzing 8+ years of financial data and achieving 53% improvement in risk-adjusted returns and automated Excel data models.
